Was this MoSAIC Festival worthwhile? Educational? Useful to you? Please tell us what you thought, and what stands out in your mind.

1. Yes
2. Yes
3. Yes
4. Triple gear was Amazing!
Was this MoSAIC Festival worthwhile? Educational? Useful to you? Please tell us what you thought, and what stands out in your mind.

Completely educational.

Passion for making math fun and relating it to creativity and art stood out for me. Thanks!!

Was this MoSAIC Festival worthwhile? Educational? Useful to you? Please tell us what you thought, and what stands out in your mind.

Yes, very worthwhile. The use of mathematics in tangible art is very cool. We should have more of these in the Atrium.

10/10 would recommend.
Was this MoSAIC Festival worthwhile? Educational? Useful to you? Please tell us what you thought, and what stands out in your mind.

Yes, Yes; Yes; this panel made me think about the potential in most of the mathematic artwork. Also makes me want to take another shot at math.

MoSAIC Festival Survey—Please Tell Us What You Think
Berkeley City College—October 3-4, 2014

I enjoyed the festival very much. A lot better than I expected and very educational; I appreciate math a lot more now."
Pieces were great!

Was this MoSAIC Festival worthwhile? Educational? Useful to you? Please tell us what you thought, and what stands out in your mind.

I really enjoy the math and art aspects of it. What is amazing is the combination of the two arts meshing together.

Was this MoSAIC Festival worthwhile? Educational? Useful to you? Please tell us what you thought, and what stands out in your mind.

It is educational & make math fun. A good creative way of teaching.
MoSAIC Festival Survey—Please Tell Us What You Think  
Berkeley City College—October 3-4, 2014

Was this MoSAIC Festival worthwhile? Educational? Useful to you? Please tell us what you thought, and what stands out in your mind.

The entire day was very worthwhile. I teach math at a community college and I will be able to enhance my lectures using some of what I learned.

Berkeley City College—October 3-4, 2014

Was this MoSAIC Festival worthwhile? Educational? Useful to you? Please tell us what you thought, and what stands out in your mind.

It was very interesting and showed how math is used mainly for patterns.

It's really inspiring in what you can make with 3D printers.

Was this MoSAIC Festival worthwhile? Educational? Useful to you? Please tell us what you thought, and what stands out in your mind.

The material was absolutely mind-blowing. There wasn’t a dull moment at this event.
The only thing I’d change would be the pace of the workshop/presentation of geometry in Islam. The material was interesting, but it could have been presented in half the time—and the other half filled with material that wasn’t covered due to the time constraint (of which—having seen the Alhambra myself—I’m sure there’s much, much more of that).

Was this MoSAIC Festival worthwhile? Educational? Useful to you? Please tell us what you thought, and what stands out in your mind.

the 3D-printing talk -> 3 thumbs up
the polyrhythms talk -> great for all ages & skill level

Art exhibits are very inspiring & motivating to the math/computer science student
The festival was extremely worthwhile and educational. You had a nice mix of lecture and hands-on workshops.

My only suggestion would be that you may want to think of ways to further break down some of the technical terms for people who are unfamiliar.

Yes! This should be the approach to teaching this young math.

Thank you!

Worth
Was this MoSAIC Festival worthwhile? Educational? Useful to you? Please tell us what you thought, and what stands out in your mind.

Educational — Yes
Useful — Not sure
Worthwhile — yes — George Hart — better than expected

I've already known many geographic patterns, but it was the first time to get the lecture of ideas of geographic patterns. The workshops gave me the chance to consider the ideas of the sacred patterns. I hadn't understood the patterns!

Was this MoSAIC Festival worthwhile? Educational? Useful to you? Please tell us what you thought, and what stands out in your mind.

Thanks for doing this!
I only found out about this the day before, but I informed as many groups as I could (elementary, high school teachers in art, science, math), our college math club. Not many had heard about it, and so weren't able to come. Advertise more! Connect with school districts/groups.

Enjoyed Carol Bier's presence! Loved the art exhibit!

It was great. I wish there would be more hands on activities for kids ages 7-10 yo.
And exhibit is stunning, however, it would be good if someone explained the math concepts behind it (for kids) or have a handout about it.

It was a blast and I appreciate the community, it brings even if the lessons won't stay with me.
Was this MoSAIC Festival worthwhile? Educational? Useful to you? Please tell us what you thought, and what stands out in your mind.

Yes! Mosaic festival has captured my attention just as I was coming out of class today. I'm so glad I got to do art, and learn about shapes today. Especially love the people interaction involved. Maybe repeat people was how the ancients discovered shapes.

Very worthwhile and educational. I liked both the talks and the workshops. And, of course, the art!
